*National Fallen
Firefighters Foundation*

The U.S. congress created the non-profit National Fallen Firefighters Foundation in 1992 with the mission to honor fallen firefighters and to assist their survivors in the rebuilding of their lives. The Foundation has developed many programs to fulfill this mandate.

Immediately after a firefighter dies in the line of duty, the Foundation provides survivors with a place to turn. Families and chiefs receive emotional support through peer support groups. In addition to the family support the spouses and children of fallen are eligible for scholarship assistance for education and job training. Annually, the families of Fallen Firefighters are brought to the NFFF Memorial for a final service and the institution of the Firefighters names at the Memorial.

16 firefighter life safety initiatives have been identified as part of the NFFF's national program to prevent firefighter deaths. The program "Everyone Goes Home" is being implemented throughout the country as part of the core mission of the Foundation in cooperation with U.S. Fire Administration. This program is one of the most critical learning experiences any fire service member can participate in.
