Emergency Vehicle Operator Course (EVOC)

Learn safe driving and get your EVOC certificate

To help emergency vehicle drivers cope with the increased possibility of accidents and provide them with useful additional training, the Central Florida Fire Academy offers the Emergency Vehicle Operators Course. This comprehensive course meets all certification standards required by the State of Florida.

Every day, drivers of virtually every type of emergency vehicle need to operate beyond the limits normally experienced by the private driver. The nature of fire and ambulance driving during emergencies often places extreme demands on both the driver and the vehicle.

This program will teach drivers to avoid the types of accidents most often experienced in the line of duty. The concept of safe driving is taught both in the classroom and on the driving range.

The course is designed to:

- Educate drivers about the legal aspects of Emergency Vehicle Operation
- Train drivers in the techniques of accident avoidance
- Upgrade driver skills required for safe and efficient operation

This course is a must for EMT students/graduates; firefighter students/graduates; Fire Department engineers and district commanders.

Class Information

Classes consists of two 8-hour days. The first day centers on classroom lecture and discussion. On the second day, students practice their new skills, using their own vehicles.

Dates/Time

Offered from **0800-1700** on the **third Saturday and Sunday of every month** except for legal holidays. Also, because Father's Day falls on the third weekend of June, the class is offered either the second or the fourth week of that month. (Ten or more students may request a special date at least three weeks in advance.)

Cost

\$155 (\$130 ecm²) due by the Wednesday preceding first day of class

¹ class fees subject to change

² employees of agencies that are members of the Central Florida Fire Academy Consortium
