

"Training those who save lives and protect property"

Confined Space: Technician

How to safely rescue in tight spaces

Confined Space: Technician is a 40-hour course designed for members of confined-space rescue teams, and is based on standards established in NFPA 1670. Students will perform victim retrieval in simulated and actual confined spaces.

This course includes simple and compound rope hauling systems, as well as advanced confined-space entry and extrication techniques. Emphasis is placed on rope rigging, hazard identification, and hazard mitigation skills.

Bring: Hard hat, gloves, eye protection, and non-skid shoes with safety toe boxes.

Dates: Oct 8-12, 2007
Mar 31-Apr 4, 2008
Jun 16-20, 2008
