

"Providing safe, high-quality & innovative fire/rescue education & training"

Engine Company Operations

Performing Engine Company Functions

Maybe you're assigned to an engine crew. Or maybe you're on a truck crew but sometimes have to perform engine company functions. In either case, what you need to perform at your best is an increased awareness of, and skill in, using the many options available on the fireground. **Engine Company Operations** is designed to give you that knowledge and the opportunity to put it to use.

Selecting proper sized hose and correctly placing it for the most effective fire attack

Topics include:

- Various nozzles in the fire service, their limits and capabilities
- Limits and capabilities of various types of hoses
- Fire behavior, with a focus on flashover recognition and prevention
- Choosing the appropriately sized hoselines for fire attack
- The importance of correct hoseline placement (location) for fire attack
- Appropriate levels of manpower to move hoselines
- The various types of hose stretches and advantages of each
- Various folds or storages for high-rise/garage, wildfire lines
- Basic tactical knowledge for
 - Single story and two story residential
 - Garden Apartment
 - Commercial
 - High-rise
